

## REFLECTO READING SYSTEM

The special Reflecto System fitted with ground crystal glass lenses and aluminised surface mirror virtually eliminates parallax and gives a reading of exceptional clarity. It is illuminated by a special fluorescent tube devised for continual lighting—no 'on-off' flashing. The divisions, an apparent  $\frac{1}{16}$ " in width, are the largest of any fully automatic machine of similar capacity. The chart itself contains no less than 25,000 individual computations.

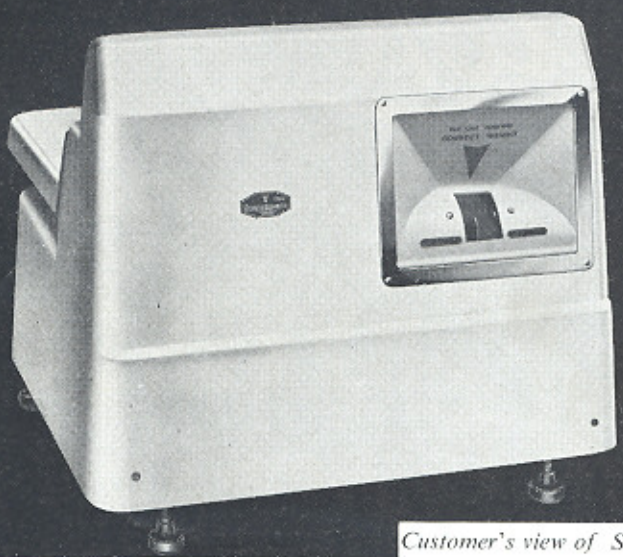

## MECHANISM

Specially designed to include the latest engineering methods and material, but still incorporating tried weighing machine practice and skilled workmanship. Jewel agate bearings, specially hardened steel knife edges, Ni 'Span' C helical springs, Swiss clock spindles and ball races, patented oscillation regulator with simple external control. All these features combine to give chronometer accuracy with long life.

## EXTERNAL FEATURES

Hygienic, easy to clean, one piece Polystyrene cover, totally encloses all working parts keeping the mechanism free from damp and dust and eliminating joints and crevices to trap dirt.

Specially designed for the modern shop with low overall height. Accessories in chrome plate and stainless steel. The goods plate at a convenient height for serving, is the largest on the market.

Customer's view of Scale.

## SPECIFICATION

Capacities:	20 lb. x $\frac{1}{2}$ oz.	10 lb. x $\frac{1}{4}$ oz.
Price Charts:	1/2 to 4/-	2/4 to 8/-
Size of Base:	16 $\frac{7}{8}$ " x 18 $\frac{7}{8}$ "	
Height:	16 $\frac{1}{2}$ "	
Weight:	74 lb.	
Trade Fittings:	Polystyrene Plate 18" x 11" Stainless Steel Fish Pan or Fruit Scoop 18" x 12"
